

Current situation

NT Airports is continuing to monitor the COVID-19 situation. Our priority remains the wellbeing and safety of our staff, contractors, visitors and travellers, and we are taking all the necessary precautions to ensure our people are protected.

Latest advice

There are 28 confirmed cases of COVID-19 in the Northern Territory and 25 people have recovered. It has been three weeks since the last confirmed case.

On Thursday 30 April, the Northern Territory Government announced their Roadmap to the New Normal outlining the next steps for the Northern Territory, including reduced restrictions. NT Airports will be working through what this means over the coming days and continue to keep you informed.

While the situation is currently stable and some restrictions in the Territory are easing, it is important that we continue to follow the recommended advice and avoid becoming complacent.

Airport operations

Alice Springs Airport has reduced operating hours and there is restricted access to the terminal. Operating hours will be reviewed each week in line with flight schedules.

On Sunday 26 April, four Singapore Airlines A380 aircraft arrived in Alice Springs for storage at the Asia Pacific Aircraft Storage (APAS) facility. This was an exciting opportunity for many and we would like to thank our staff and contractors for their assistance during this operation.

Support for tenants

NT Airports is continuing to work through the details of all the recently announced packages and we will continue contacting our tenants to discuss available relief packages.

We encourage all of our tenants to stay in touch with us during this period.
